DRAFT

2026 – 006 – Bournemouth 16 Jan – Report 68. VS to advise why a strip search had been necessary without an AA present.

2026 – 010 – MO will follow up with the Niche Team regarding the change of juvenile to child.

VISIT REPORTS

4.1 The Chair highlighted key data from the visits during Quarter 1 - 2 April 2026 to 1 July 2026.

- It was noted that 91% of detainees were willing to speak with the ICVs, which was consistent with the percentage reported in the previous quarter.
- Of those detainees who were not spoken to, 30.4% were recorded as being asleep at the time of the visit.
- It was noted that the average visit duration had increased and was almost double that recorded during the same period last year. A review of the data indicated that this was likely attributable to training commitments and staffing levels, with Custody Sergeants and Detention Officers returning to full establishment numbers. It was also noted that several new ICVs are currently undergoing training, which also contributes to longer visit times.
- The report demonstrated that visits had taken place across every day of the week, with all time slots covered.
- It was noted that entry was gained within five minutes for all visits except two. Of these, one visit gained entry within five to ten minutes and the other within ten to fifteen minutes.

Recurring Themes

- An overview of the recurring themes was provided, highlighting one late first review for which no rationale had been recorded, and two late inspector reviews where a rationale had been documented. It was noted that this represented an improvement compared with the previous quarter. If this positive trend continues, the theme will be considered for closure following one further quarter of reporting.
- It was noted that the number of instances where the DP had not been informed of their review had reduced to two, compared to seven in the previous quarter, indicating a positive improvement.
- There had been a significant improvement in the timeliness of observations compared with previous quarters. While a rationale had not been recorded in a small number of cases, overall, the performance had improved considerably. In light of the progress, it was agreed that the issue is no longer needed to be monitored as a recurring theme.
- It was agreed that, given the significant improvements observed in other areas, only late Inspector reviews would remain under monitoring as a recurring theme for the next reporting period.
- It was noted that two detainees had not been informed of reviews conducted while they were asleep. It was agreed that this issue should continue to be monitored during the next reporting period.
- In relation to late 30-minute observations, four instances were identified, three of which did not have a recorded rationale. Of the four late observations, two were delayed by less than ten minutes and two were delayed by between 11 and 20 minutes. It was noted that this represents an improvement on the previous quarter.

CUSTODY VISIT REPORTS

4.2 Bournemouth – 20 April 2026 - Report 99 – LT & AM

ICVs noted that the Qur'an had been stored below other religious texts. VS confirmed that all religious texts are now stored on the same shelf in accordance with the relevant guidance.
ICVs also noted that ongoing maintenance issues continued to affect the custody suite. Two solid-door camera cells were out of use: M1 had been unavailable for approximately one month due to a broken grille beneath the sleeping platform, and M9 had been out of use for around two weeks following damage caused by a wheelchair user. Cell V2 remained in limited use due to flaking paint. In addition, three interview rooms were out of use for various maintenance-related reasons.
Chief Inspector Bishop advised that contractors had attended the custody suite and completed repairs to four cells. As a result, only two cells are currently out of use, although these closures are recent. It was also noted that one interview room has now reopened and is available for use.

4.3 Weymouth – 5 May 2026 – Report 103 – AM & LT

An ICV raised a case involving a detainee who had been subjected to PAVA spray during arrest. The custody record was reviewed and included a clear account of the use of force to facilitate a strip search, with the rationale and actions taken comprehensively documented.
The ICV queried whether the detainee should have been offered a shower following exposure to PAVA spray. Chief Inspector Bishop advised that a shower could have been offered; however, this would depend on the individual circumstances of the case. It was noted that access to fresh air can often assist with recovery from the effects of PAVA and, in some circumstances, may be more beneficial than the use of water. Chief Inspector Bishop agreed to check the protocols relating to use of PAVA spray including post-exposure care and provide an update at the next meeting.

Action – Chief Inspector Bishop

4.4 Weymouth – 13 May 2026 – Report 106 – CS & LT

ICVs reviewed the detention of Detainee 3263 and noted that a strip search had been authorised at 13:23, as recorded in the custody log. The issue had been marked as non-urgent; however, no record of the search being conducted was visible in the log up to 15:19. During this period, the detainee had been interviewed and had also spent time in the exercise yard while accompanied by staff.

VS advised that this was a recording error. A subsequent an entry had been made by the Custody Sergeant at 16:38 stating: "This search was authorised and completed at 13:27." Following discussions with the ICVs, it was established that the original entry had not saved correctly, despite the search having been authorised and completed at the recorded time.

DRAFT

4.5 Bournemouth – 21 May 2026 – Report 112 – AB & NH

ICVs noted that insulin belonging to a detainee had been left in the custody suite refrigerator. At the time of the visit, the Custody Sergeant advised that efforts would be made to contact the detainee and arrange for the medication to be returned. However, it was subsequently noted that the insulin remained in the refrigerator three weeks later. Chief Inspector Bishop acknowledged the concern and agreed to consider potential solutions within custody to help prevent medication being left in the fridge.

Action – Chief Inspector Bishop

ICVs reported that the custody record contained a narrative describing the detainee's inappropriate behaviour during a strip search. However, they were unable to locate either a specific record confirming that the strip search had been conducted or a documented rationale authorising the search.

VS advised that, following the ICV visit, the rationale for the strip search was added to the custody record, with entries made at 19:15 and 19:16. It was confirmed that the strip search had taken place between 14:15 and 14:30. Members noted that, while the search had been conducted, the relevant rationale had not been recorded and was added retrospectively following the ICVs' enquiry.

Chief Inspector Bishop advised that communication to staff would be provided with an update and reminding everyone about the importance of recording clear rationales.

Action – Chief Inspector Bishop

4.6 Weymouth – 2 June 2026 – Report 114 - JH & SA

ICVs noted that only New Testament Bibles were available within the custody suite and expressed the view that Old Testament Bibles should also be made available to detainees.

VS confirmed that Old Testament Bibles have been ordered and will be added to the suites collection of religious texts.

4.7 Weymouth – 19 June 2026 – Report 119 - AM & NH

During an ICV visit, it was noted that a detainee in cell M11 had raised several complaints relating to both the arrest process and their treatment in custody. The detainee was informed of the available routes for making a formal complaint but indicated that they did not wish to pursue these options. It was also noted that the detainee's solicitor had withdrawn due to the detainee's behaviour and that a shower had not been facilitated at that stage. The Custody Sergeant advised that the offer would be revisited and discussed further with the detainee.
The detainee expressed a preference for their case to be heard at Weymouth Court rather than Southampton. It was explained to the detainee that this was not possible. The CS advised that the detainee presented as a complex individual and provided clarification of this to the ICVs.

Chief Inspector Bishop provided an update on the temporary closure of Poole Magistrates' Court, which shut in May following the discovery of asbestos and is expected to remain closed for around six months. As a result, detainees are no longer

being transported to court by Serco and are instead dealt with through a live-link process, with hearings and warrants handled remotely through Southampton. Following hearings, detainees are either remanded or released on bail.
These arrangements have placed additional pressure on custody resources, particularly during the morning period. To help manage demand, Operation Narrate has been introduced, providing additional staffing support from Bournemouth, including two Police Constables, a Detention Officer and a Custody Sergeant, subject to overtime availability.
It was also noted that Serco is transporting overnight remand prisoners from Weymouth to Bournemouth, although some detainees remain in Weymouth depending on operational demand. Chief Inspector Bishop advised that custody suites have faced significant pressures, with regular lockouts involving multiple detainees. Despite the additional strain on resources, the associated overtime costs are being funded by the Courts Service.

4.8 Bournemouth 21 June 2026 – Report 120 - RW & HL

During this ICV visit, the ICVs were unable to review detainee custody logs due to a printer malfunction. It was noted that this was a force-wide technical issue.

ANY OTHER BUSINESS

5.1 Chief Inspector Bishop thanked the ICVs for their continued commitment and efforts in carrying out the scheme. He welcomed the scrutiny provided by the Panel and noted that, alongside the issues identified, there had been several positive findings and areas of improvement highlighted during the reporting period.

The Custody Manager advised that she is a strong supporter of the Independent Custody Visiting Scheme and values the important role that ICVs play in providing independent scrutiny of custody. She confirmed her commitment to continuing to work closely with the Panel and thanked members for the warm welcome extended to her at her first meeting.

Custody Log Review	Female Officer Appointed Use of Force recorded
Other comments about this detainee	DP was unhappy as she would like to be released promptly. In particular, she had an appointment at 7.30pm for her methadone script, and she is unhappy to have missed this. The Log shows that she was offered to be taken to the appointment (escorted), but she declined. DP stated that she is allergic to most foods, and that she can only consume plain chicken and salad which would need to be procured from outside of custody. DP is known to the Force, and her dietary requirements are known and noted in the Log. DP requested a Solicitor, but later said she did not wish for one if this would delay her interview and release. DP claims she is pregnant, which is recorded in the Log (3 months pregnant). DP would like to know when he shall be interviewed please, and update provided. DP was unhappy to not be in a glass fronted cell, as she has anxiety and has historically been held in glass fronted cell. ICVs advised of access to the yard, which the DP declined. DP advised ICVs that her house keys are in West Howe, but she lives in Moordown so shall not be able to enter her property, once realised, unless these are retrieved.
Custody Officer response to issues raised about this detainee	DP is well aware of the processes of custody. She has been offered food on numerous occasions. But is refusing. It is not known if she requested a glass door cell on arrival or if one wasn't available. Arrangements have been made for a solicitor however DP keeps changing her mind in the belief that this will speed up the process

Custody Log Review	Use of Force recorded Late Observation Check - DP on 1 hour obs - 11-20 mins - no rationale
Other comments in relation to this detainee	DP asked ICVs if he could be provided with a nicotine lozenge please. He would like a shower, but understands he needs to see the HCP first, as it may not be possible with his wound dressing (ICVs were updated whist completing report that the HCP has seen the DP and they are going to facilitate a shower). One Obs check (60 mins) at 06:10am was 15 mins late, with no rationale provided. DP advised ICVs he was grateful to be allowed to complete phone calls from his cell, ahead of going to prison where this may be more difficult. The DP is hungry, and the escorting officer took note of this during the visit. The DP shared with ICVs that he has been wearing his daily disposable contact lenses 3 days after being detained. He was hoping his Mum could retrieve his glasses from his flat and drop them off, but she has since collected his cats and gone home (not local). The DP asked if any eye drops / a lenses tray are available. ICVs noted that the DP was PAVA'd on arrest, which will not help re the lenses.
Custody Officer response to issues raised about this detainee	The late Obs check was due to a busy suite during handover time, with only 2 x DOs. The CO spoke with the HCP re eye drops, as the only glasses available in custody are reading glasses. The HCP advised that they will determine if the saline solution would be suitable. Or, if not, she will go to Asda and procure suitable products.

ICV Closing Comments	The suite was extremely busy. We noted a couple of detainees were complimentary about the staff. Our visit has been extended by the need to wait for the custody sergeant to come free to speak with us (he was busy booking in and the other Sgt was at lunch). This was a 40 minutes wait for us. All staff were courteous and helpful. Thank you.

ICV Closing Comments	On arrival even though there were only four DPs in custody, all interview rooms were being used therefore there was no secure area for ICVs to operate. Discussion with DOs and CS agreed that ICVs could use staff restroom ... but this is not secure and following ICVs physical visit and whilst doing reports, DOs asked ICVs to move to interview room. This should be discussed with OPCC and Force as to what the policy should be. DOs and CS were unsure. Second point is that no HCP on site. Otherwise suite was calm and organised and staff were very helpful.

ICV Closing Comments	With 20 detainees in cells, the suite was very busy. We had an escorting officer for less than 15 mins in the cell area so were limited who we could speak to. We weren't able to see kitchen, stores or texts for this reason. Note, the inspector also popped in to see that we were ok and to assist with any queries.

Other comments about this detainee	Female detainee was selected for our visit. Unfortunately due to very busy custody there wasn't time for the escorting officer to take us to cell, ie Custody Officer had to cut short our visit owing to exigencies of the custody suite and the number of detainees needing to be released.
