7866	Detained 2 days. Detainee was PAVA'd at the scene and has asthma and breathing difficulties. No mention of a shower following the PAVA.					
7932	Detained 12 hours. Detainee was unclear on the progress of his medication and but has not requested to see the nurse.					
General Issues Raised						
Suite was clear and tidy. Good staff.						
Response at Time of Visit						
With regards to 7866 the detainee was still aggressive at the desk and unsuitable for a shower. Advice after PAVA is not to wash it for a period of time as this can cause reactivation if the chemicals. The detainee was offered to go to the exercise yard for fresh air but this was declined.
