

## **CANDIDATES FOR THE ROLE OF CHAIR**

### **Colin Ellis**

I would like to be considered for re-election as Chair for the Dorset ICV Team; although only in post for a year I believe I have made a positive contribution to the team since my election last year. Taking over the helm after Di's departure was no small challenge especially as Di left the team immediately after stepping down as Chair. Since taking on the role I have continued to be active in the recruitment process of the last intake of ICV's, helped out at online events, represented the team on BBC Solent Radio, and supported the training of the latest intake of ICV's. I would like to further develop the ICV team within Dorset, and now the potential merger of the Dorset and Devon forces has been abandoned I believe we can further develop the scheme in Dorset – already seen as one of the best in the country, to be the benchmark against which other schemes are measured. A strong relationship manager I have developed a good working relationship with the Force, OPCC and the ICV team as a whole and would like, once again, to be considered for the role of Chair.
