

“Mistakes were made.” HMIC’s review into allegations and intelligence material concerning Jimmy Savile between 1964 and 2012.

PCC Response

Like most people I have been shocked and appalled at the allegations that have come to light over recent months concerning Jimmy Savile.

Whilst there is no specific reference to Dorset within the HMIC report I am glad that the Inspectorate has reviewed the police response to the historical allegations that have been made so that lessons can be learned for the future.

I am also reassured that Dorset Police will continue to work with officers from Operation Yewtree to investigate reports of historical criminal offences that may have occurred in Dorset.

Martyn Underhill
Police & Crime Commissioner for Dorset
